Microsoft Lync powered by Utopia Systems
Enterprise-ready unified communications platform

Utopia
S Y S T E M S

Microsoft® Lync® is an enterprise-ready unified communications platform. With Lync, users can keep track of their contacts' availability; send an IM, transfer files—all through a consistent, familiar interface. Lync is built to **fully integrate with Microsoft Office**.

IM and Presence
Microsoft Lync 2010 gives users real-time prescence information-- incluiding photos, availability, and location-- and enhanced instant messaging (IM) to help them connect more efficiently and effectively.

Office Integration
Lync was built to work hand-in-hand with Microsoft Office for a consistent, familiar experience.

Secure File Sharing
Lync allows you to securely connect and transfer files to your colleagues with minimal effort.

Mobile Apps
The Microsoft Lync 2010 desktop client is available for Windows and for Mac and mobile versions are available for Windows Phone, iPhone/iPad, and Android devices.

The biggest thing to hit the office since Microsoft Office.
